

# SWING GATE

## AGZ-Z9000C

The AGZ-Z9000C serial intelligent swing gate is made of 304 stainless steel and integrally shaped by cold-rolled plate spraying. Its appearance is designed in a modern and simple style, matched with lights and lines, giving the whole product a unique modern aesthetic feeling. This serial product uses grating detection technology, is equipped with 64 pairs of electric eyes, and integrates functional modules such as access control, face recognition, QR code scanner, main controller, sensors, alarm, and voice system. The product is characterized by high standards, high quality, high integration, and high security.

- Grating Detection and 64 Pairs of Infrared Electric Eyes
- **Multiple Intelligent Protection Technologies**
- Designed for Premium Office Building

### TECHNICAL INFORMATION

Color	Golden, black, and original color
Material	304 stainless steel
Dimensions (L*W*H)	1,500*118*980mm
Lane Width	600-1,150mm
Voltage	AC 220V/110v±10%,50/60HZ
Motor	DC Brushless Motor/ Servo Motor
MCBF	>10,000,000 times
Passing Speed	20-40 persons/minute
Opening Closing Speed	0.5s-1.5s adjustable
Number of Electrical eyes	64 Pairs
Communication Protocol	RS485 and TCP/IP
IP Rating	IP44
Applicable Environment	Indoor
Integration	Can Be Integration with Any Third Party Access Control
